Dan's Corner

Our eBay Store has hit an all time high this last month. Byron has listed 700 items on the store with more coming almost every day. We ship all over the world and right to your doorstep too!

To make all this happen we have been doing inventory. Imagine unrolling 700 bolts of fabric, measuring them, and rolling them back up neatly again! It has been a nightmare and it is not nearly over. When we get it done and finally figure out what we have we will be making decisions about what to order next. The fabric coming out from the manufacturers is much more exciting than it was last year and we hope to fill up on some great stuff soon. Just 4,300 items left to inventory and then we can get a move on!

Right now is a great time to get that **sewing machine tune-up** you have been putting off. Enjoy a day in the pool - if it ever stops raining and warms up - and let me service your pride and joy. When you get it back you will be most pleased with the results and your machine will last you years longer.

Happy Summer!

GE Money Sale

This summer you can finance your large purchases with GE Money for 12 months at 1.99% and 18 months at 3.99%. We will be happy to explain the conditions and dates this special is available.

(Always use credit wisely.)

Special sale or everyday low prices?

As many of you know, we lowered all our prices on fabric a few months ago so there is no fabric in the store over \$7.99 per yard. We are not having fabric sales because we can either have low prices all the time or lower our prices once in a while. We believe we have excellent fabric at fair prices and do our best to replenish them as finances and space allow. It is worth the trip to Corning or shopping our eBay Store!
